PRESS RELEASE

Rock Tech Lithium Intensifies Investor Engagement with Roundtable and September 2026 Conference Participations

TORONTO, September, 10, 2026 /CNW/ - Rock Tech Lithium Inc. (TSXV: RCK) (OTCQX: RCKTF) (FWB: RJIB) (WKN: A1XF0V) **(the "Company" or "Rock Tech")** is pleased to announce that Company management will participate in several capital markets conferences and political events this month of September. To address a larger number of stakeholders directly, the Company will also host an investor roundtable on September 21, 2026, to provide an update on Rock Tech's made-in-Ontario, mine-to-converter strategy and the Company's timeline for development and production start of its mining and converter projects.

In addition to the investor roundtable, Rock Tech's management will participate in several leading investor conferences and high-level industry roundtables throughout September. These engagements will provide opportunities to connect with institutional and retail investors, industry participants and key stakeholders, while highlighting Rock Tech's strategic vision, key catalysts and milestones expected to advance the Company's projects.

Conference Schedule:

Date	Conference / Event	Location	Purpose / Role
12 Sep	CEO Connect & Investment Opportunity	Heidelberg, Germany	Investor engagement
15-17 Sep	Fastmarkets European Battery Raw Materials	Budapest, Hungary	Panelist - Sustainable Sourcing: Requirement or Reality?
16 Sep	German-Canadian Critical Raw Materials Partnership	Toronto, Canada	Panelist – Canada-Germany Partnership in Critical Minerals
21 Sep	Rock Tech Virtual Investor Roundtable	Virtual	Investor roundtable
23 Sep	Apaton Investor Event	Munich, Germany	Investor engagement
25–27 Sep	Muskoka Capital Event 2026	Muskoka, Canada	Investor engagement
28 Sep	Resource Policy as the Key to Sovereignty and Prosperity	Berlin, Germany	Panelist – Mined in Germany?
30 Sep	CEO Connect – Made For Germany Annual Assessment	Berlin, Germany	Industry / government engagement

On behalf of the Company,
Mirco Wojnarowicz
CEO

About Rock Tech Lithium

Rock Tech is enabling the battery age by making the battery industries in Europe and North America more independent and competitive. The Company's goal is to ensure the supply of high-quality, locally produced lithium – supporting a resilient, sustainable, and transparent value chain from mine to battery-grade material.

Rock Tech relies on responsible sourcing, state-of-the-art and proven technologies, and a clear focus on circular economy principles. The Company's lithium converter projects in Guben, Germany (24,000 tonnes LHM per year) and Ontario, Canada (up to 32,000 tonnes LCE per year) form the foundation for a stable and regional supply to the battery and automotive industries. The Guben converter has been recognized as a Strategic Project under the EU Critical Raw Materials Act.

The raw materials for Rock Tech's converter projects are intended to be sourced exclusively from verifiably ESG-compliant suppliers. In Canada, Rock Tech relies, among other sources, on its wholly-owned Georgia Lake Project, which is intended to provide a stable and sustainable supply for the North American market and is being developed in close partnership with local Indigenous communities. By integrating recycled materials, the Company aims to close the local battery loop.

With its facilities, Rock Tech intends to contribute to battery-grade material sovereignty and the achievement of climate targets. The company works in partnership with industry, policymakers, and community groups, and is committed to open communication and the highest environmental standards.

With its facilities, Rock Tech makes a central contribution to battery-grade material sovereignty and the achievement of climate targets. The company works in partnership with industry, policymakers, and community groups, and is committed to open communication and the highest environmental standards.
