

PRESS RELEASE

Rock Tech Lithium to Participate in CEM's Muskoka Capital Event

- **Rock Tech broadens investor outreach and increases awareness of its growth strategy**
- **Rock Tech addresses previously underserved Canadian investor audience**

TORONTO, September, 24, 2026 /CNW/ - Rock Tech Lithium Inc. (TSXV: RCK) (OTCQX: RCKTF) (FWB: RJIB) (WKN: A1XF0V) **(the "Company" or "Rock Tech")** is pleased to announce its participation in the Muskoka Capital Event, hosted by CEM (Capital Event Management Ltd.), taking place September 25–27, 2026 at the JW Marriott The Rosseau Muskoka Resort & Spa in Muskoka, Ontario.

The Muskoka Capital Event brings together companies from a diverse range of sectors and stages of development with a select group of institutional investors, portfolio managers, investment advisors, family offices, and high-net-worth investors from across North America. The event is structured around a series of pre-scheduled one-to-one meetings designed to facilitate direct dialogue and support the development of long-term capital relationships.

Rock Tech will participate in 18 scheduled, 20-minute meetings throughout the event, joining approximately 47 companies and over 55 investors for CEM's final Capital Event of 2026.

Rock Tech's participation in the upcoming conference is part of its continued efforts to engage with Canadian investor base and strengthen awareness of the Company's growth strategy. During the conference, Rock Tech will provide an update on the advancement of its Canadian mining project and processing plant, highlighting key development milestones, upcoming catalysts and initiatives aimed at further de-risking and advancing these projects, while outlining the Company's near- and medium-term priorities and potential value-creation opportunities.

For more information on the event, please visit cem.ca.

On behalf of the Company,
Mirco Wojnarowicz
CEO

About Rock Tech Lithium

Rock Tech is enabling the battery age by making the battery industries in Europe and North America more independent and competitive. The Company's goal is to ensure the supply of high-quality, locally produced lithium – supporting a resilient, sustainable, and transparent value chain from mine to battery-grade material.

Rock Tech relies on responsible sourcing, state-of-the-art and proven technologies, and a clear focus on circular economy principles. The Company's lithium converter projects in Guben, Germany (24,000 tonnes LHM per year) and Ontario, Canada (up to 32,000 tonnes LCE per year) form the foundation for a stable and regional supply to the battery and automotive industries. The Guben converter has been recognized as a Strategic Project under the EU Critical Raw Materials Act.

The raw materials for Rock Tech's converter projects are intended to be sourced exclusively from verifiably ESG-compliant suppliers. In Canada, Rock Tech relies, among other sources, on its wholly-owned Georgia Lake Project, which is intended to provide a stable and sustainable supply for the North American market and is being developed in close partnership with local Indigenous communities. By integrating recycled materials, the Company aims to close the local battery loop.

With its facilities, Rock Tech intends to contribute to battery-grade material sovereignty and the achievement of climate targets. The company works in partnership with industry, policymakers, and community groups, and is committed to open communication and the highest environmental standards. With its facilities, Rock Tech makes a central contribution to battery-grade material sovereignty and the achievement of climate targets. The company works in partnership with industry, policymakers, and community groups, and is committed to open communication and the highest environmental standards.

CAUTIONARY NOTE CONCERNING FORWARD-LOOKING INFORMATION

Certain statements contained in this news release constitute "forward-looking information" under applicable securities laws and are referred to herein as "forward-looking statements". All statements, other than statements of historical fact, which address events, results, outcomes or developments that the Company expects to occur are forward-looking statements. When used in this news release, words such as "expects", "anticipates", "plans", "predicts", "believes", "estimates", "intends", "targets", "projects", "forecasts", "may", "will", "should", "would", "could" or negative versions thereof and other similar expressions are intended to identify forward-looking statements.

In particular, this press release contains forward-looking information pertaining to Rock Tech's opinions, beliefs and expectations regarding the Company's business strategy, development and exploration opportunities and projects; and plans and objectives of management for the Company's operations and properties.

The forward-looking information in this news release is based on several key assumptions and material factors. The forward-looking information also assumes favorable market conditions for lithium. Forward-looking statements by their nature are based on assumptions and involve known and unknown risks, uncertainties and other factors which may cause the actual results to differ materially from the forward-looking statements, including general business, economic, competitive, political and social uncertainties; delay or failure to receive regulatory approvals; changes in project plans; the risk that regulatory approvals may not be obtained on the anticipated timeline or at all; and risks, uncertainties and other factors discussed in the Company's public disclosure documents available under its profile on SEDAR+. No assurances can be given that any of the events anticipated by the forward-looking statements will transpire or occur, and the Company cautions the reader not to place undue reliance upon any such forward-looking statements. The Company does not intend, nor does it assume any obligation to update or revise any of the forward-looking statements, whether as a result of new information, changes in assumptions, future events or otherwise, except to the extent required by applicable law.
